

NMX

**Close coupled centrifugal pumps
in stainless steel with threaded
connections**

NMX

Key Benefits

Versatility

Multiple mechanical seal options make this pump adaptable to various needs. Perfect for domestic water supply, agriculture, car washing and many other applications.

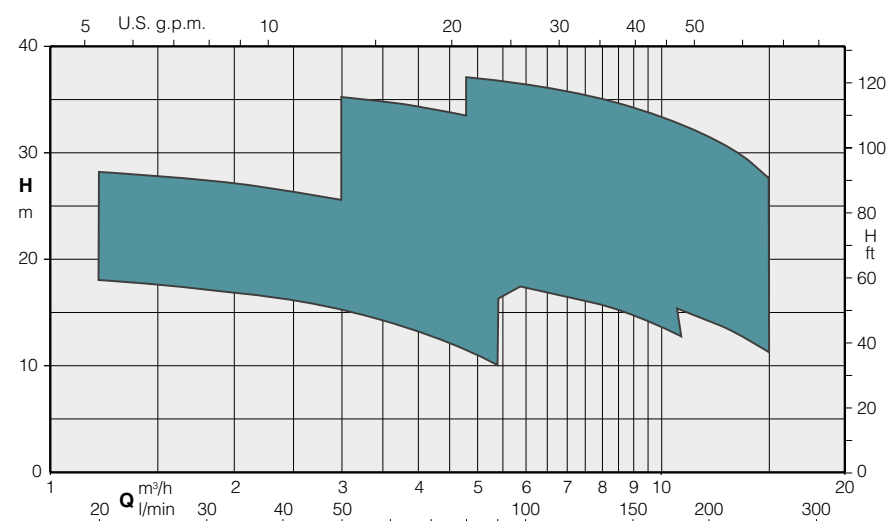

Durable Construction

Robust construction ensures the pump can withstand challenging conditions. Made from high-quality stainless steel, this pump can also handle slightly aggressive fluids, ensuring longevity and reliability.

Hydraulic Efficiency

Designed to deliver high level performance across a wide range of applications.

Performance

NMX

Construction

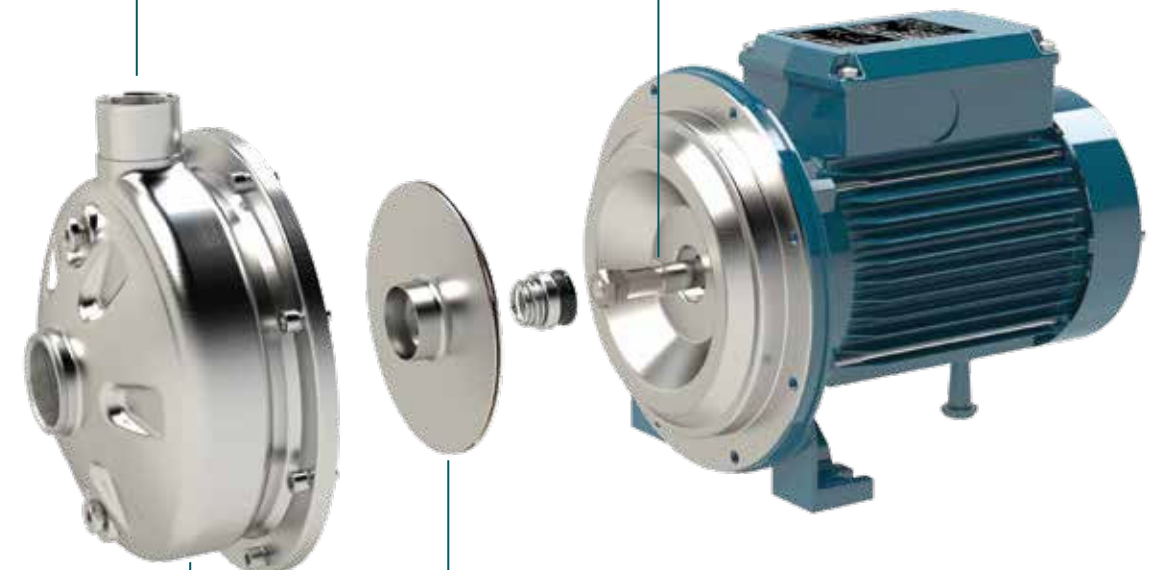

Threaded ports ISO 228/1 (BS 2779)

Shaft in AISI 304/AISI 316

Impeller in AISI 304/AISI 316

Pump casing in AISI 304/AISI 316

Applications

Residential & commercial applications
water supply and circulation in domestic and commercial building services

Machine tool
handling process water for parts washing, degreasing, chemical treatment

Car & commercial wash
transport of process water in washing and cleaning systems

Agriculture
water circulation in irrigation systems, greenhouses

Data center
coolant circulation in temperature control systems for electronic data processing
